

Job title	<i>Senior Architect / Intermediate Technologist / Intern Architect</i>
Reports to	<i>Project Manager</i>
Level	<i>Intermediate to Senior</i>
Work Term	<i>Permanent</i>

About Us

Stuart Howard Architects is a mid-sized design oriented firm located in a building of its own design in Vancouver's South East False Creek district. The firm has stressed user participation, neighborhood involvement, and quality design throughout its 40 year history. Designs are undertaken in the office with a team approach, with input from all members of the firm and participation in the process by the client and user group. We are committed to developing high quality, cost-effective, innovative design solutions for our clients.

Over the years, the practice has been involved in many building types with a strong area of emphasis on residential buildings, Heritage restoration and extended care.

We currently have several projects that are moving into the contract documents phase and have an immediate opening for an Intermediate to Senior Architect, Intern Architect or Technologist with strong contract documents production skills.
